

6th Grade Newsletter

January

Geography

In 3rd quarter students will study Southeast Asia and the trading partners from the region.

Science

Space.....the final frontier (or is it just the beginning)! Students will discuss the earth in space, our sun and moon, then move to the inner and outer planets.

Math

Students will work with Rates and Ratios as well as percent problems in Chapter 5. Then the students will begin to problem solve using integers and graphing in a coordinate plane. Advanced Math Students will pick up their pace with multiple chapter studies!

English

Third quarter in English takes the students deeper into sentence structure and writing poetry

Reading

Our first literature unit of the new year is Poetry! Students are learning about the many types of poetry and how sensory and figurative language are used to enhance writing.

Big Events

AR Half Goal is Due Jan. 31st,
Midterm Grades on Feb. 16th

Other
