

# 7th Grade Team Newsletter

## Investigating Math:

We've taken our last major test already. Students will be finishing the year with a smaller unit about squares and square roots. We will also be doing a Pythagorean Theorem project!

## Pre-Algebra:

Students will end the year graphing linear equations, which is Chapter 4. They will have a project on Pythagorean Theorem.. On the field trip May 9, students will look for a right triangle to a Pythagorean Theorem project.

## World History:

Students will be learning about the medieval practice of using a coat-of-arms and the symbols that were used. They will be then create their own coat of arms.

The final test of the year will be May 16.

## Language Arts:

Students will end the year studying both classic and modern forms of poetry. They will gain experience reading, writing, and performing various works.

Please join us for the first annual Cafe Wave, May 16th from 8:30-9:45 am. This is a time for students to showcase their poetry and art.

## Physical Science:

Students will finish the year with Force, Motion, and Newton's Laws of Motion. The last test of the year is scheduled for the last full week of school. Students can build a Newton's cradle at home to show in class, but it is not a requirement. Those are due by May 16 to show in class.

## Big Events:

Wednesday, May 9 is our annual field trip to Platte River State Park. We need parent volunteers to serve as chaperones. If you are willing to volunteer, please contact Mr. Doele at [jeromy.doele@district145.org](mailto:jeromy.doele@district145.org).

FULL AR GOAL DUE MAY 11th
